Dear Gary & Gary - Words are hard to find that properly express my feelings when you recognized Dan and I with the lifetime membership to Fish First and the beautiful plaque. It was a complete surprise and yet not untypical of the positive way your leadership inspires people to do their very best. My years with Fish First was an inspiration to my life focused on purpose and supported by some of the best people I have had the privilege and honor to work with.

Thank you for your leadership, direction and enthusiastic support during those years. Mike and I appreciate and thank you for what you did. She packed a lot of lunches for me during that time. We are happy and encouraged that what we started with Fish First is still growing stronger and the combination with CCA will really work to bring back the fish.

Kindest Personal Regards. Jack & Mike Kaeding
